Mammogram Informed Consent

Please read each paragraph carefully and sign and date the form.

- I understand that all screening mammograms performed at Aylo Health include **3D Tomosynthesis Imaging**.
- I understand that a mammogram is only 90% accurate in detecting breast cancer and is only a partial examination for diagnosing breast cancers.
- I understand, based on my clinical symptoms, I may be referred for a diagnostic mammogram, ultrasound or to a surgeon. The diagnostic mammogram and ultrasound is not considered preventative and would be billed as separate studies.
- I understand that I am responsible for getting my results if I have not heard from my physician after 2 weeks.
- I understand periodic breast examinations should be done by a physician.
- I understand if after seeing my physician I continue to have breast problems, regardless of a negative report on the mammogram, I will contact my physician for instructions on further follow up.
- I understand some redness and/or tenderness of my breasts may occur following the mammogram due to the compression device necessary for good images, but these symptoms should be gone within 24 – 48 hours.
- I understand a mammogram does require the use of low dose radiation; therefore, I will inform the technologist if I think I might be pregnant.
